RSPHERE TECH
Solving Real Problems

SAP IMPLEMENTATION SERVICES:

SAP Application Managed Services: We offer comprehensive SAP Application Managed Services to help businesses streamline operations, reduce costs and maximize the value of their SAP investments.

- Regular Maintenance and Patching
- Backup and Disaster Recovery
- Incident Management and Resolution
- Performance Optimization
- 24/7 System Monitoring
- User Support and Training

Consulting Advisory Services: We offer comprehensive consulting and advisory services to help businesses with SAP implementation, system optimization and strategic guidance for complex SAP challenges.

- Strategic Planning and Road mapping
- Business Process Optimization
- Solution Design and Architecture
- Risk Assessment and Mitigation
- Change Management and Training
- Continuous Improvement and Support
- Performance Optimization

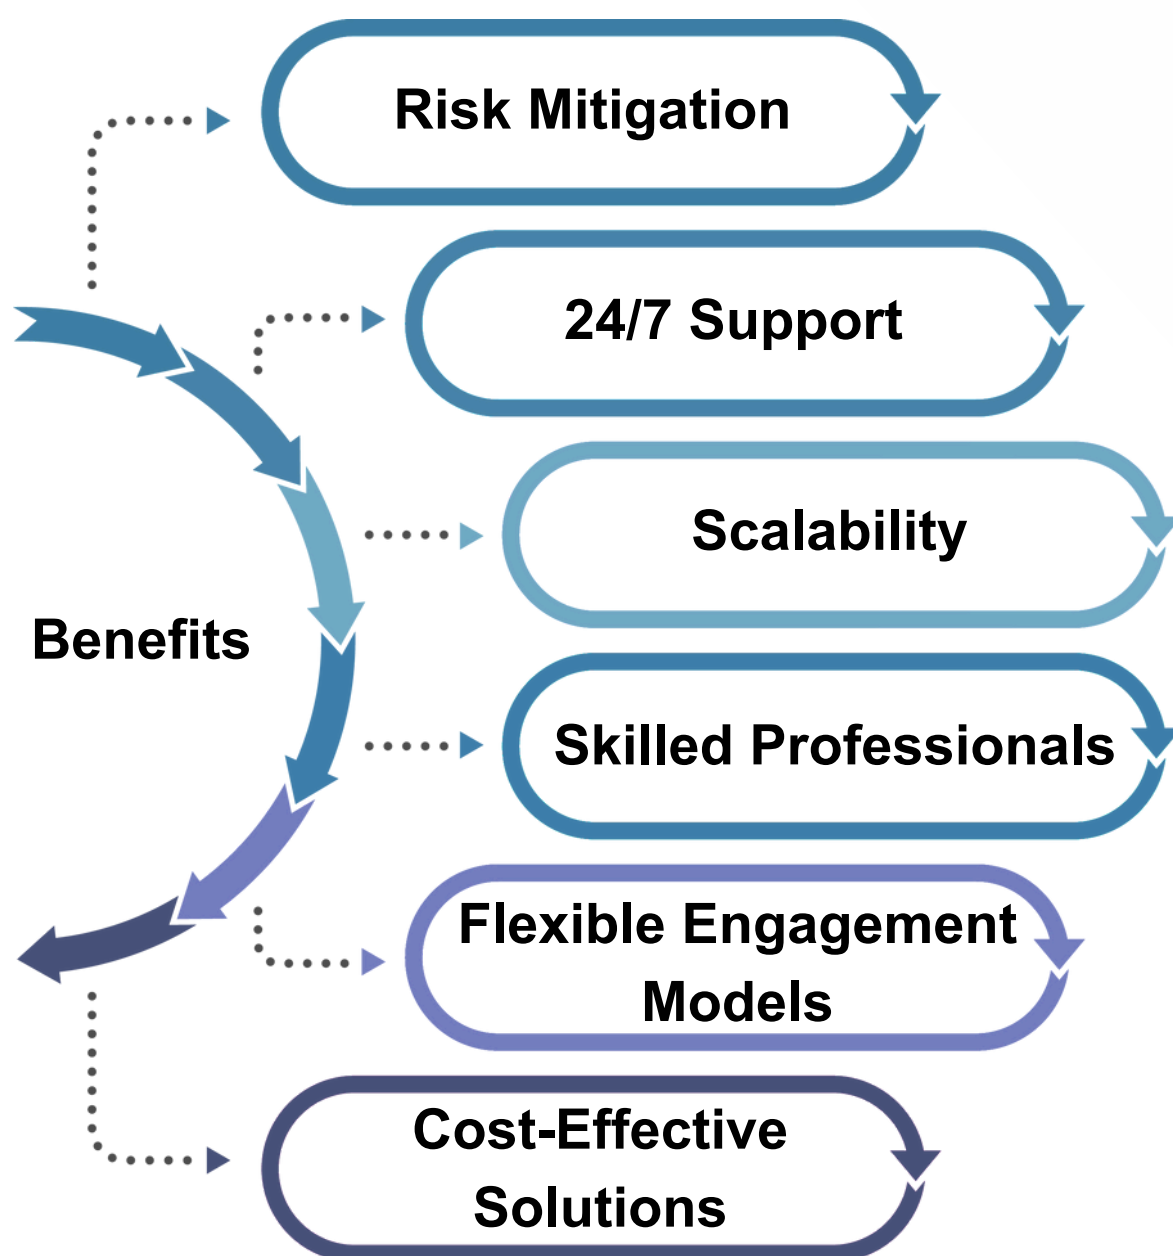

SAP IMPLEMENTATION SERVICES:

On-Shore/Off-Shore Staffing Model: We offer a variety of flexible engagement models to deliver high-quality solutions while optimizing costs and maximizing value. We can deliver complete projects from initiation to implementation or provide specific resources to augment your delivery team.

Statement of Work (SOW) services provide the flexibility to engage our team for specific projects on a contractual basis.

Staff Augmentation services for your existing teams with skilled SAP professionals on a temporary or long-term basis. Seamlessly scale your team with experienced SAP consultants and developers for projects, temporary gaps or peak demand.

SAP PROJECTS:

1. VEHICLE MANUFACTURING OPTIMIZATION (ROLLOUT PROJECT)

This project involved 2 key aspects:

1. **SAP Manufacturing Process Optimization** to re-map the SAP system, resulting in a more streamlined and efficient production flow.
2. **Comprehensive Manufacturing Strategy Enhancement** by fostering improved resource utilization and data-driven decision-making.

Project Outcomes

- ▶ Increased efficiency and agility by enhanced resource utilization and data-driven decision-making.
- ▶ Rigorous quality control changes that improved product quality and enhanced customer satisfaction.
- ▶ Developed a manufacturing strategy to prioritize scalability, flexibility and adaptability to evolving markets.

Technology

- ▶ ABAP
- ▶ SAP Remote Function Call (RFC)

SAP Modules

- ▶ SD (Sales & Distribution)
- ▶ MM (Materials Management)
- ▶ VMS (Vehicle Management System)

Solving Real Problems

SAP PROJECTS:

2. 3RD PARTY MES INTEGRATION

Achieving seamless third party Manufacturing Execution System (MES) integration and plant-level inventory management was the core aim of this project, ensuring efficient stock control across the client's manufacturing operations.

Project Outcomes

- ▶ Streamlined processes, optimized inventory and stock management eliminated bottlenecks and minimized waste.
- ▶ Reduced waste and excess inventory directly contributed to cost savings and enhanced overall profitability.
- ▶ Enhanced stock visibility and operations enabled data-driven decision-making and faster market response.
- ▶ The project ensured consistent product availability, ultimately promoting customer satisfaction.

Technology

- ▶ ABAP
- ▶ SAP Remote Function Call (RFC)
- ▶ SAP Process Integration and Orchestration (PI/PO)

SAP Modules

- ▶ SD (Sales and Distribution)
- ▶ MM (Materials Management)
- ▶ VMS (Vehicle Management System)

SAP PROJECTS:

3. DIRECT VEHICLE SALES PLATFORM INTEGRATION

This project aimed to integrate a third-party vehicle sales portal with the client's existing platform. This strategic integration aimed to enable direct vehicle sales through the client's online portal, fostering a seamless customer experience.

Project Outcomes

- ▶ Expanded Sales Capabilities and Reach by leveraging their existing platform for direct vehicle sales.
- ▶ Enhanced Customer Experience by a user-friendly platform for browsing and purchasing vehicles online.
- ▶ Increased Customer Interactions and loyalty driven by the integration fostered higher satisfaction and loyalty.
- ▶ Improved Sales Efficiency by establishing a streamlined and sales process.
- ▶ The enhanced online experience provided customers with greater control over their purchasing journey.

Technology

- ▶ ABAP
- ▶ SAP Remote Function Call (RFC)

SAP Modules

- ▶ SD (Sales & Distribution)
- ▶ MM (Materials Management)
- ▶ VMS (Vehicle Management System)

SAP PROJECTS:

4. WARRANTY MANAGEMENT SYSTEM MIGRATION TO SAP

This project aimed to modernize the client's warranty management system by migrating from a legacy Visual Basic application to SAP. The migration involved a comprehensive process of assessment, customization and data migration to seamlessly integrate warranty management within the SAP ecosystem.

Project Outcomes

- ▶▶ SAP transition enhanced efficiency by streamlining warranty mgmt, improving accuracy, speed & process visibility.
- ▶▶ Meticulous customization & data migration led to a smooth transition with minimal disruption to business.
- ▶▶ The SAP project improved warranty management enabling the client to deliver exceptional customer service.
- ▶▶ Modernized warranty management now positions the client to meet future business needs effectively.

Technology

- ▶▶ ABAP
- ▶▶ SAP Remote Function Call (RFC)

SAP Modules

- ▶▶ SD (Sales & Distribution)
- ▶▶ MM (Materials Management)
- ▶▶ VMS (Vehicle Management System)

SAP PROJECTS:

5. VENDOR PORTAL INTEGRATION WITH SAP FOR OPTIMIZED PROCUREMENT

The goal of this project was to optimize procurement by integrating SAP with a third-party vendor portal by leveraging key functionalities like Supplier Management and P2P automation.

Project Outcomes

- ▶ Streamlined sourcing and purchasing operations leading to improved efficiency and shorter lead times.
- ▶ Improved catalog management offered easier access to products and services further optimizing procurement workflows.
- ▶ Analysis of vendor performance and spending enabled cost optimization and data-driven procurement decisions.
- ▶ Optimized workflows and vendor analysis increased procurement transparency and facilitated cost-effective purchasing.
- ▶ Platform for improved communication and collaboration with vendors led to stronger and strategic partnerships.

Technology

- ▶ ABAP
- ▶ SAP Remote Function Call (RFC)
- ▶ SAP Process Integration and Orchestration (PI/PO)
- ▶ Electronic Data Interchange (EDI)

SAP Modules

- ▶ SD (Sales and Distribution)
- ▶ MM (Materials Management)
- ▶ VMS (Vehicle Management System)

SAP PROJECTS:

6. AUTOMATION AND INTEGRATION FOR ENHANCED BUSINESS EFFICIENCY

This project streamlined & automated key financial mgmt. processes within the client's SAP system by developing custom programs for: Material Master Data Mgmt, Vendor Mgmt, Bank Integration & General Ledger Master Record Mgmt.

Project Outcomes

- ▶ Custom programs automated key financial processes reducing manual effort and streamlining operations.
- ▶ Streamlined processes minimized errors and ensured data accuracy across critical financial areas.
- ▶ Seamless module integration provided real-time access to key financial data, empowering better decisions.
- ▶ Optimized processes increased cross-functional collaboration across departments.
- ▶ The project delivered greater business agility and a competitive edge in the market.

Technology

- ▶ ABAP and Electronic Data Interchange (EDI)
- ▶ SAP Process Integration and Orchestration (PI/PO)
- ▶ SAP Remote Function Call (RFC)
- ▶ SAP Web Services
- ▶ AP Core Data Services (CDS)
- ▶ SAP Analytics Cloud (SAC)

SAP Modules

- ▶ SAP FI (Finance)
